SUMMARY

Senior accounting analyst with 15 years of experience, both at an accounting firm and in corporate controllership. Holds degrees in Accounting and in Systems Analysis and Development. Responsible for account reconciliations, the month-end close and notes to the financial statements in the travel and tourism industry. Bridges accounting and data by building SQL queries, Python automations and AI solutions that shorten the close and make financial information more reliable. Recognized for commitment, fast problem-solving and a willingness to teach the team.

OBJECTIVE

To work as a Senior Accounting Analyst, in Controllership or related roles, applying accounting experience and data skills to improve processes, increase the reliability of information and support decision-making.

EXPERIENCE

SENIOR ACCOUNTING ANALYST

03/2024 – present

CVC Corp · B2B Controllership

- Reconcile the general ledger against supporting schedules for balance sheet accounts (accrued payables, commissions payable and on trips not yet departed, airline tickets, portal invoices and advance payments), identifying and resolving differences.
- Take part in the month-end close, performing variance analysis, investigating inconsistencies and tracking account status by owner.
- Prepare notes to the financial statements, such as Accounts Receivable and the allowance for doubtful accounts (PCLD).
- Develop SQL queries in Databricks and automate reconciliations and closing routines with Python and AI.
- Build closing dashboards and presentations (aging, account roll-forwards) for management and contribute to improvement projects.

ACCOUNTING ANALYST

09/2021 – 03/2024

Andradas Contábil Ltda.

- Performed month-end closes, reconciliations, account analysis and financial statements.
- Reviewed journal entries, account movements and accounting reports.
- Handled requests and supported closing activities.
- Mentored and trained early-career professionals.

ACCOUNTING ANALYST

12/2011 – 09/2021

Conquest Gestão Contábil / Diagrama Contabilidade

- Served companies of different sizes.
- Performed closings, reconciliations and analysis of balance sheet and income statement accounts.
- Prepared financial statements, corporate income tax (IRPJ/CSLL) under the actual- and presumed-profit regimes (Lucro Real/Presumido) and ancillary tax filings.
